CHRS a company registered under companies ordinance 1984 by a group of experts having several years of experience in the field of development to provide quality services to its client. CHRS is offering specialized services for the public and private sector organizations to help them establish efficient organization and operational systems and controls.

Expertise of CHRS includes Research, Training & Development, HR management and system development, organizational management & change management. Our resource persons are well known as leaders in their field and work on public and private programs as with some of the countries leading employers. In addition to research and provision of training we also offer executive coaching on a different development approach.

We want to create a society;

“Where individuals are empowered to realize their full potential by maximizing their talents and abilities.

“Where companies, governments, the educational communities and organization value all people and foster the creation of wealth and self fulfillment.”

To provide quality services to ensure the adequacy, implementation and consistency of internal controls, policies and procedures and overall organizational operations to assist management at all levels to achieve their organizational objectives.
